Valuation of Project

Scope of Work

Description

Instructions

The valuation shall include the cost of all drawings, engineering, parts and labor. If an unrealistic low valuation is submitted, the Fire Marshal shall determine the valuation.

All submittals shall include:

- Plans drawn to scale
- Cut sheets for all equipment
- Written scope of work

Fire sprinkler and underground supply applications shall bear a Washington State Certificate of Competency stamp.

Call Fire Prevention at 253-946-7248 for any questions

Design criteria can be found at www.southkingfire.org
